BETHANY'S FAVORITES

SUZAN OBAGI RETIVANCE SKIN REJUVENATING COMPLEX

As one of the most important aspects of skin care, this particular retinol comes with a blend of moisturizing ingredients as well as Hyaluronic acid. These ingredients help mitigate the dry feeling that is sometimes experienced with the use of a retinol containing product.

ZO EXFOLIATING POLISH

This amazing skin polish is packed with perfectly round magnesium spheres making it gentle enough to use as an every day exfoliant. It also has a refreshing smell!

COLORSCIENCE FACE SHIELD FLEX SPF 50

Not only does this sunscreen protect the skin against UV and blue light damage, it also comes in both tinted and non-tinted varieties. The tinted versions “bloom” with your skin tone for true color matching. I use this product every day.

OBAGI HYDRATE LUXE

As we transition from the warm summer months into cozy fall our surrounding environments also change, which often requires a deeper hydration from our products. This face cream leaves the skin feeling truly luxurious, giving a hydrated and plumped result. I use mine as a night cream.
