

WHAT'S NEW?

MARISHA'S FAVORITES

ZO PIGMENT CONTROL CREME

Used twice daily to keep hyperpigmentation at bay in anticipation of an up-coming procedure and because I have spent my life in the sun.

ZO PIGMENT CONTROL AND BLENDING CREME

Blended with Tretinoin and used at night for penetration into the deeper layers of my skin to address all aspects of hyperpigmentation.

INTENSE SERUM (PLATED)

Applied first over clean skin (before the ZO products) because it keeps my skin from being reactive and addresses redness that is caused by inflammation.

ZO SMARTTONE SPF50 SUNSCREEN

Looks better than makeup and protects my skin!
